

3 September 1983

NOTE FOR: Deputy Under Secretary of
Defense for Policy

Dick:

Re technology transfer, has anyone in your shop taken a second look at the various unclassified data bases that are maintained around the country which contain DoD information that while not classified, can certainly contribute to tech transfer?

I have attached a memorandum which I received from our Technology Assessment Center on the subject. No need to reply-- I just wanted to flag it to your attention.

John N. McMahon
